Case Narrative	
Case Number: 17-29267	
Assault	
Date: 08-21-2017	
Ofc. P. Spak #629	
On 08-21-2017, while on uniformed patrol in the City of Kirkland, County of King,	
State of Washington, I was dispatched to an assault that had occurred overnight,	
at Fairfax Hospital, 10200 NE 132nd ST. The reporting party and victim,	
(DOB stated he had been assaulted by a male who was	
later identified as (DOB (DOB)).	
I arrived on scene, and spoke with the second stated the following in a	
written statement:	
has been residing in Room 106 at Fairfax Hospital. A roommate,	
also lives in Room 106 and has been staying there for two days. On 08-21-	
2017, at about 0100 hours, awoke from bed and walked out into the	
hallway to get himself something to drink. As was walking out of his	
room, he noticed his roommate, was sitting up and awake in his bed.	
got himself something to drink, and walked back into his	
bedroom. As was walking past the open door, was suddenly	
felt a "large blow" to the top of his head. This caused great pain, and	
was in shock of what had just occurred. was dazed, he	
realized his roommate was the person who struck him. was	
standing near him, holding a pillow case with a large book inside. Before	
could react, then, as if he was swinging a baseball bat, swung	
the pillow case at a gain struck directly on his left cheek	
bone. again, took a third swing at a gain struck in	
the same spot, on his left cheek bone.	
On a scale of 1-10, trace and rated this pain to be a 9, if 10 was the most	
pain he has felt in his life. After the third hit, we will yelled at "What did	
you do that for?" replied, "I didn't know who you were." then	
replied, "Of course you know me we've been rooming together for 2 days!"	
For the rest of the morning, was not able to sleep due to the	
pain. All day the search has been dealing with a ringing sound in his left ear where	
he was hit, and his neck has been sore. was offered medical	
assistance by Fairfax staff, but declined any, because "there were no	
cuts or blood to clean up."	
added that for the first two days, himself and had been	
getting along fine, and there had been no conflict.

I confirmed with on-duty Fairfax staff, that has been moved to a different "unit" at Fairfax Hospital, where he will have no further contact with Fairfax staff then provided me with information, and he was identified as (DOB).	
I watched video footage, of the area where the assault occurred. In the video I was shown, is seen walking into his bedroom from the hallway. Suddenly, other patients who are in the hallway abruptly turn around, and face is room, as if there was a large noise or disturbance coming from that area. A short time later, is then seen walking out of his bedroom, holding his head. A copy of the described footage has been requested, and will be submitted into evidence once received. Video of the actual assault did not occur on video.	
I met with the parties, and advised him of his Miranda Rights, which were read off my department issued Miranda Card at 2033 hours. Stated he understood his rights, and said he did not wish to speak with me. This is where my contact ended with Later I ran a query of through DOL/WACIC/NCIC and confirmed this was the male I spoke to earlier based upon his Department of Licensing Photograph.	
developed Probable Cause to charge with RCW 9A.36.041(1) Assault in the 4th Degree. I prepared a probable cause statement and Criminal Citation C43517K to be sent to the Kirkland Municipal Prosecutor for Review.
